

AIICP-CESPI cooperation agreement

A cooperation agreement was signed on 15 July, 2020 between AIICP and CESPI - Centro Studi di Politica Internazionale - one of Italy's more long standing and respected research centres on international affairs, chaired by Piero Fassino and directed by Daniele Frigeri, with a focus on geopolitics, economic interrelations and development issues. A programme of meetings and exchanges has been agreed and the two centres will conduct a research on India's political situation, relations with China and the USA, the challenges and opportunities posed by the Modi government economic plans and the implications for Indo-Italian relations, under the guidance of a joint steering group.
